James, Topanga CA/Sydney Australia, May 2019 Your words and our session felt like a beacon of white light right now especially in relation to my concern over lack of work coming in... and my heart burst with joy on hearing your viewpoint of my knowing Heather and Hendrix before, in a past lifetime...

Claire, Santa Rosa CA Dec 2018 I finally got back to listen to your radio program with Roberta - You are amazing, awesome, incredible, talented, gifted, impressive, and more!!!!!!!!!!!!!! Thank you for being a gift to all of us and continue to "shine de light" as only you can!

Jan 2019 You do have way of creating amazing events in your life for your own reflection - and then sharing the story with others to reflect on and grow from. (Roberta Teller, Sebastopol CA

Caecelie, From Pasadena, CA/Copenhagen April 2018 I see my situation in a new light. I am starting to appreciate and value where I am and it is definitely already starting to show in my surroundings. Thank you so much!!!! You are always the best healer I know, mother

Calle, Copenhagen, Feb 18, 2022 Your wisdom and clarity. There is a beautiful balance in your words and your way of being. Tonight feels special. Something is letting go. Another step on this lovely journey.

Kevin, Windsor CA Dec. 2018 The Highly Sensitive Individual, seems to strike a chord with me. And helps me better understand my PTSD. Know how much you have touched and changed my life, as well as all the others you have enlightened through your work, art, and general “sense of presence.” I very much respect and honor your life, which is being well lived!

I’ve been to a few sessions with Marcia through mindfulness courses offered in Windsor. I appreciate her warmth and insights. Meditation is hard for me, so her mindfulness practices and exercises were much better suited for my need. I look forward to future sessions.

The gifts that Marcia has to offer can come only from a life that has been lived in creativity, integrity and deep study of life arts. Marcia is a friend of mine so I well know her beautiful presence, her diverse creativity and unique collection of healing modalities. Recently, I did a Voice Dialogue session with her, with the intention of integrating warring parts of myself. Marcia lovingly led me to integration, knowing exactly when to lead and when to follow. She is a beautiful soul and a master healer.

I have witnessed Marcia Singer at work on several occasions. While watching her sing to and raise the spirits of seniors confined to assisted care, I was moved to tears by the quality of her caring and very much roused by the energy and spirit she put into her work. Marcia Singer is truly a beautiful person.

I also had the opportunity to be part of a group she led in which we explored our dreams for the future and feelings about our present lives. Marcia led us skillfully and with great heart into deeper and more meaningful realms. Her sincerity, integrity and honesty shines through her. I unhesitatingly recommend Marcia -- I am certain she brings the very finest to all of her services.
